

# makeup masterclass

Award winning makeup artist *Sarah Brock*, has worked with presenter *Myleene Klass*, fashion designer *Jenny Packham* and is the 'go to makeup artist for bridal makeup' according to *British Vogue*. Sarah shares with **MoreYou** her insider secrets to creating contours and enhancing skin tone for a subtle, yet radiant supermodel style.

## Get the look

with beauty guru *Tanya Burr*

Beauty blogger, **YouTube** phenomenon and *sienna X* fan, *Tanya Burr* has created a beautiful get the look video featuring the brand new *sienna X* products. If you want to find out how to look like a *Victoria's Secret* angel then take a look at Tanya's video on [www.sienna-X.co.uk](http://www.sienna-X.co.uk)

**1 Before you apply bronzer and highlighter** - it is important to even out your skin tone as they won't have the same impact on blotchy or uneven skin. Even if you do not wear a lot of makeup, a hint of tinted moisturiser and concealer will give a fresher look to the skin, in preparation for your bronzer or highlighter.

**2 To apply bronzer** - begin with a light hand and build up slowly. Focus on the areas that the sun would naturally hit, such as the forehead, chin, jaw-line and the tops of the cheeks. Remember, bronzer is not designed to give a block colour to your face, just a hint of a tan and colour. Dust the remainder of the product down the neck and along the décolleté for a more natural look.

**3 To apply highlighter** - remember, less is more. Highlighters are designed to bring out features, so apply mainly to your cheek bones, just above the brows and if you want too, you can apply a tiny amount down the centre of the nose. A small amount to the inner corner of the eyes can also make eyes 'pop' and look bigger.

### A/W12 MiniTrend: **Sculpting**

Defined and chiselled cheekbones were a hit across all four cities during fashion week. Seen at an array of shows, sculpting was soft, smooth and bronzed. Create your fashion week look with the brand new *sienna X* collection.
