Dublin, Edinburgh, Manchester, Leeds, Bristol, Birmingham and London. The tour proved essential experience for all of Daniel's artists who got a feel for what it is like to work backstage at a fashion show, and recreate high fashion looks under pressure.

The regional artists created two looks in total - 'summer of love' that had silver glitter eye shadow, smudgy black liner and black lashes with silver. The other look was called "Graphic" and featured fluorescent day-glow colours on eyes, lips and nails to

compliment the bold, graphic prints on the summer dresses. Daniel explains: "The GHD Expert UK

Tour was an opportunity for my guys to get a real behind-the-scenes feel of how a makeup artist should create a look that goes with the hair, clothes and accessories."
