

### Winning Streaks

South West Makeup Artist wins National Wedding Industry Award

Wiltshire based makeup artist Sarah Brock is delighted after winning the beauty category of the 2008 Wrap It National Wedding Industry Awards.

The Wrap it National Wedding Industry Awards recognises professionals in the wedding industry, the excellent work that they do and the great relationships that they forge with their customers.

Throughout the country, there were 240 finalists in 16 categories. Sarah won the Southern Regional Finals and then attended the glamorous Awards ceremony final at Claridge's in London's Mayfair on February 20th. Set in the mirror ballroom, the crème de la crème of the wedding industry celebrated their success.

The winners have been voted for by brides who have used their service, so excellent customer service was essential for anyone getting through to the final.

Sarah was overwhelmed when her name was announced as a winner and after collecting her award, was interviewed by Wedding TV, who were filming the event. Winning this Award is the icing on the cake for Sarah, who lives with her family in Calne, Wiltshire and has a makeup studio in Hallmark Photography. She travels to London often, as she is the Artistic Director of Makeup for celebrity

makeup artist Daniel Sandler, making her his second in command. During the last year she has worked on the GHD Expert Tour, London Fashion Week, the 2007 Elle Magazine Style Awards and regularly writes for wedding and fashion magazines. Sarah has made up 100's of brides in the South West and over the UK.

Sarah said "to be an award winning makeup artist is a dream come true for me! I have had a fabulous year and this was the icing on the cake. My next exciting venture is TV presenting – when I was interviewed at the Wedding Industry Awards final, I was offered a guest presenters role on Wedding TV's Wedding Breakfast Show, which is so exciting"!
